

MARKET WATCH

Market Performance

The Amman Stock Exchange General Index started off the week positively, rising by 1.14% compared to last week as the market entered the 'dividend distribution phase'. However, this was not to last, as investors, watchful of the restructuring of capital by many companies, and awaiting the first quarter of 2008 financial results, preferred to realise profits, exerting downward pressure on a number of blue-chip stocks. Wednesday saw the market pick up again, with a diversion of investor trading towards the relatively smaller stock, with Union Land Development and Union Investment Corporation positioning themselves in our list of most active stocks in terms of number of shares traded. This concentration on "cheaper" stock brought about a 12.4% decline in value traded compared to last week, despite a rise in the volume traded.

The recovery of the market led the General Index to rise once more above the 8,700 point threshold, to register at 8,738.99 points. The number of advancers fell short of decliners, at 86 to 95 out of a total of 198 companies traded. The market P/E registered at 24.19 times, while the market cap reached JD 33.66 billion.

Block trades were active, reaching a total of thirty, five of which were on the stock of the Arab German Insurance Company, helping to rank it as our top gainer for the week.

The Arab Potash Company entered our most active list in terms of value traded, following the announcement of its financial results and distribution of dividends, while the Jordan Electric Power Company continued to dominate both lists of most active stocks.

Shareco Brokerage registered as our top decliner for the week, as its owners struggled to offload their holdings, finding limited demand at the Company's current price.

Sector Performance

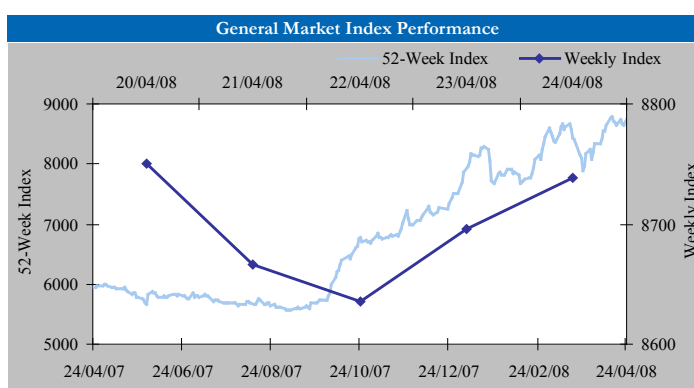

The Services Sector continued to lead the sectors in terms of both value and volume traded, claiming the lion's share of the total value traded at 56%, equivalent to 78.74 million shares, for a value of JD 242.45 million. The Industrial Sector followed with a traded value of JD 160.01 million and a volume of 26.34 million shares. The Banking Sector contributed a trading value of JD 24.56 million with a total of 3.82 million shares, while the Insurance Sector brought in the rear, with 3.15 million shares traded for JD 6.19 million.

Meanwhile, the Industrial Sector Index was our top climber this week, rising by 1.43%, while the Services Sector Index
