

MARKET WATCH

Market Performance

On the eve of the Adha eid holiday, an announcement by the Dubai Government of the restructuring of Dubai World's liabilities and intentions to approach creditors to suspend repayments of debt relating to Dubai World and Nakheel for a period of at least six months brought to the surface fears of a setback to the global recovery and a recurrence of the Lehman Brothers scenario last year. Global financial markets collapsed in the midst of an absence of information and amid contradictory signals by the Dubai Government, with rumours of Dubai World's whopping USD 60 billion in outstanding debt to be included in the restructuring, which include USD 3.52 billion in sukuk issues relating to Nakheel due to be settled on December 14th of this year. On the opening of the Amman Stock Exchange on Tuesday following the five-day holiday, the General Index declined by a sharp 2.2%. However, as Dubai World revealed its plans with regards its restructuring, coupled with the settlement of a coupon on the Jebel Ali Free Zone sukuk (a subsidiary of Dubai World), confidence was restored in the global market as estimates of the debts to be rescheduled were redefined at around USD 26 billion, due to the exclusion of a number of the Group's subsidiaries from the restructure plan. Moreover, in the local market, the Central Bank of Jordan reassured investors that the banks in Jordan are not exposed to Dubai World, aside from banks with branches outside the Kingdom. This helped the market recover slightly, rising by 0.5% on Wednesday and 0.7% on Thursday to end the week at 2,556.1 points, still down 1.0% compared to last week's closing.

With only three days of trading this week, the mild rally in the market over the last two days meant that the average daily trading volume registered 5.9% higher than last week at 17.92 million shares, while the average daily value traded reached JD 23.12 million compared to last week's JD 20.47 million. By the end of the week, 50 of the 115 companies traded managed to end in the green, while the share prices of 115 companies fell.

Our list of top gainers continued to produce surprises, with Jordan Poultry Processing and Manufacturing ranking in top position with a price appreciation of 50% due to the decrease in its paid-up capital from 6.40 million shares to 2.56 million shares. Investment House for Financial Services, meanwhile, was our top decliner for the week, with its price falling from JD 1.27 to JD 1.10.

Taameer Jordan Holdings managed to position itself as the most active company in terms of volume traded, while Specialized Investment Compounds was our top performer on our list of most active stocks in terms of value traded.
